SKILLS

Development

Agile Methodologies, Git

Languages

HTML/CSS, JS, Java, SQL

UX

Sketch, Zeplin, Prototyping, Balsamiq, A/B Testing, User Testing

EXTRA-CURRICULAR

Secretary of University of Auckland Snowsports Club, 2015 - 2018

President of University of Auckland Kitesurf Club, 2017

Bronze, Silver, Gold Duke of Edinburgh Awards, 2013

EDUCATION

Bachelor of Software Engineering (Honours)

2014 - 2018
University of Auckland

Honours dissertation focused on the research and development of a server-less, cloud-based interface for the monitoring of global machine performance. Sponsored by a company, we worked closely to design an application that would align with their requirements.

EXPERIENCE

Macquarie, Technical Associate Intern

Nov 2017 - Feb 2018 in Sydney Australia

Assisting in the re-design of an asset management product through front-end development and UX Design. I worked with technologies such as Angular, Bitbucket and Sketch. I produced high-fidelity screens for the development team and cleaned up the front-end look of the product in their repository.

Google, Software Engineering Intern

Nov 2016 - Feb 2017 in Sydney Australia

Implementing Android widgets for Google Maps' Share Location feature. Worked with an existing code base and application to integrate shortcuts and widgets for the Share Location feature on Android devices. Developing in Java, I adapted to the company's coding styles, development process and version control procedures.
