UX Design Professional Diploma

UX Design Institute
2021 - 2022

Bachelor Of Software Engineering (Hons)

University Of Auckland
2014 - 2018

Product Designer

Vertice | London 
Aug 2025 - Present

I redesigned the platform's most visited page to increase product adoption and improve the experience for users and internal stakeholders. I delivered a high-impact UI/UX update strategy to modernise outdated patterns and create consistency across the platform, supporting the highest sales record in the company in the first quarter of this year.

Design

UI Design, UX Design, Design Systems, User Research, Prototyping, Handoff, Accessibility

Tools

Claude, Figma, Claude Design, Posthog, Dovetail & UserInterviews

Soft skills

Interpersonal Skills, Creativity, Adaptability, Teamwork

Previous dev skills

HTML/CSS, JS, React, Git, Agile

Product Designer

Atlassian | New Zealand 
Apr 2022 - Dec 2024

During my tenure on a young and fast-paced developer-focused product like Compass, I excelled in collaborating with multiple teams and stakeholders, including cross-functional partners, to successfully deliver feature work. I took the lead in initiating and executing multiple research projects from start to finish, providing valuable insights and fostering decision-making confidence.

Frontend Engineer / Designer

Jasper | New Zealand 
Nov 2020 - Apr 2022

At Jasper (a Prop-tech startup) I was involved in designing, developing and maintaining Jasper's three applications (admin, investor and marketing apps).

Previously at Google, Macquarie and MYOB as a Software Engineer
